

Declaration of Conformity

for water-based water-repellent impregnation

KEMAFOB AQUA

Colourless water-repellent impregnation and primer for mineral surfaces. For water-repellent impregnation and priming of all mineral surfaces such as concrete, mineral plasters, roof tiles, brick, gas concrete, silicate brick, natural and artificial stone, included joints, facades of mineral colours etc. KEMAFOB AQUA penetrates 3–4 mm deep, where it induces the waterrepellent effect. The greater the absorption capability of the surface the more durable is the coating. The impregnation has to be renewed regularly, and does not seal cracked surfaces and declared with technical properties from technical data sheet.

Manufacturer and the authorized representative established within the European Economic Area:

KEMA Puconci d.o.o.
Puconci 109,
9201 Puconci,
SLOVENIA
